

IOWA TOWN BURNS FROM END TO END

HARDLY A BUILDING IN ADIAR IS SAVED.

Three Acres Were Swept Over By the Marion Blaze—The Loss Suffered Is the Most Serious in the History Of the Town—Incendiaries At Work.

DES MOINES, August 7.—The town of Adiar sixty miles west of here is burning. Help has been asked for from Stewart. It is said that hardly a building will be saved.

MARION, Ind., Aug. 7.—The fire at this place Sunday proves to have been the most destructive that ever visited the city. Fully three acres of business houses and other establishments were swept away. It was only a few minutes after the beginning of the fire that apparently it was beyond control. The efforts of the fire department were confined to the buildings that had not been attacked in order to prevent the spread of the flames. The capacity of the water works was tested beyond its limits and the fact that there was not even greater destruction is due to the assistance rendered by the private fire protection of the Marion Pulp company, which turned the water from its pumps into the city mains and contributed a large amount of hose. Over twenty buildings were destroyed. The fire occurred in a part of town covered with frame buildings. The losses will reach over \$50,000, with insurance amounting to \$37,000.

Incendiarist Fire at Lebanon, Ind.
LEBANON, Ind., Aug. 7.—An incendiary fire at noon yesterday threatened to destroy the entire business portion of this city. It started in the old Heath elevator between the Big Four and Chicago & Southeastern railway tracks on South Lebanon street. In a short time the elevator, Chicago & Southeastern passenger and freight depots, the Indianapolis Brewing company's branch depot, J. W. Pinnell's coal and lime bins, and James McDaniels' carpenter shop and residence were in ruins. The aggregate loss will reach \$20,000 with little or no insurance. There is no clew to the firebug.

Trestle and Cars Burn.
ST. PAUL, Minn., Aug. 7.—A fire out near Como park yesterday afternoon caused losses aggregating nearly \$50,000. The Great Northern railway trestle and several cars were burned. Loss, \$30,000; insurance, 80 per cent. Sheds and wood and coal of the Northwestern Fuel company were also burned, with the St. Paul Lake Ice company's ice house and the Como avenue bridge. The fuel company's loss is \$11,300; that of the ice company \$3,500, and on the bridge \$1,000, with no insurance.

Fire Started by Tramps.
CLINTON, Iowa, Aug. 7.—The business portion of Grand Mount, a flourishing town twenty-four miles west of here, was almost completely destroyed by fire Sunday. The total losses aggregate \$20,600; insurance about \$10,000. The fire is supposed to have been started by tramps who were sleeping in a barn. The town had only one fire engine and that was rendered almost useless owing to an inadequate water supply.

Explosion of a Lamp.
DIXON, Ill., Aug. 7.—The residence of Robert Dryden, postmaster at Gap Grove, this county, was totally destroyed by fire yesterday morning. The house and outbuildings, contents of postoffice and furniture were a total loss. The only thing saved was the organ. Insurance is \$750. The fire was caused by the explosion of a lamp in the kitchen.

An Ohio Village Threatened.
CINCINNATI, Ohio, Aug. 7.—The drought has so parched the grass around the village of Mount Lookout that late yesterday afternoon it took fire from sparks from the dummy engine. The fire spread so rapidly that soon the entire village, which contains the Cincinnati observatory, was threatened with destruction. After working all night the fire was subdued.

Small Blaze at Minneapolis.
MINNEAPOLIS, Minn., Aug. 7.—A fire broke out yesterday afternoon in the two-story warehouse at the corner of Tyler and Winter streets, used as a place of storage for coopers' materials. The blaze was started by a spark from a locomotive, which fell on the roof, and the building was totally wrecked. The loss is estimated at \$10,000.

Pittsville, Wis., Threatened by Fire.
LA CROSSE, Wis., Aug. 7.—Fire at Pittsville last night destroyed three residences. For a time the entire town was in danger, and an engine was sent from Grand Rapids to aid the local force. The fire was caused by neighboring forest fires.

The proposed work of the league is a combination of the Chautauqua and Christian Endeavor ideas, the motto being "Self Help." The league will build in this city a great industrial school and home for homeless boys.

RUSSIA PLANS A BOLD GRAB.

The Czar Preparing to Execute a Campaign in Korea—Needs a Part for Siberia.

WASHINGTON, Aug. 7.—Russia is planning a coup d'etat in Korea, and unless the czar's plans miscarry this will be one of the most sensational incidents of the war between China and Japan.

According to news received here today the Great Northern Bear intends to grab one of the most desirable ports of the Hermit Kingdom and establish sovereignty over it. The story to this effect is pronounced of a most authentic character and leaves no doubt of its trustworthiness in the minds of the recipients. The reason for Russia's move is her desire for a southern port which shall be open to her commerce throughout the year. The only port Russia now has on her Siberian coast is closed during the rigors of winter. The plan is not of recent birth. According to this information, which is here published for the first time, Russia conceived the idea of seizing some port in Korea over a year ago. To make her attempt successful an opportunity like the present was necessary. Waiting for chance to present such an opportunity would involve too much time. An opportunity must be made. If the Russian ambassador at Tokio (who by the way, is considered the ablest diplomat in the service of the czar) would divulge his secret operations of the last year it would be established beyond question that this was had been hatched by the warmth of the Russian bear rather than by the heat of the dispute between China and Japan.

This information is believed to be in the possession of the state department here also, but the officials are dumb on the subject. It is pretty safe to say, however, that the administration believes but for Russian intrigue the present war would not have come to pass. According to the information received this morning by the legation in question the war may be expected to end in a very short time. Russia's contemplated act may therefore be looked for at any moment. It is not believed that either Japan or China will resist. Japan is said to be secretly backed by Russia, and China would prefer Russia's seizure of a port in Korea to a Russian advance into Chinese territory from the north. Great Britain may chafe, but she has too much to attend to at present to protest, much less to attempt forcibly to check Russia in carrying out her coup. And the situation in Europe is altogether too ticklish to look for protest from any of the other powers. There is no more likelihood of this country's interfering than there is of its joining the triple alliance to keep open the treaty ports. This country will let Asia and Europe settle their troubles themselves.

TROUBLE ON KOW SHUNG.

Letters from Col. von Hannekin Confirm Report of Insurrection.

SHANGHAI, Aug. 7.—Letters from Col. von Hannekin, the former aide-de-camp, received here, to the Chinese viceroy, Li Hung Chang, confirm the reports of insurrection of the Chinese troops aboard the transport, Kow Shung. It is believed here that the affidavits made by Capt. Galsworthy and Chief officer Tamplin of the Kow Shung were signed under compulsion. Capt. Galsworthy and his companions were taken from Chemulpo to Sasebo July 29 and were released Aug. 4.

Quartermaster Evangelista is still in the hospital at Sasebo, suffering from the wounds which he received during the engagement.

Denmark is demanding the release of Herr Muhlenstedt, a passenger of the dispatch boat Tsao Kiang, which was captured by the Japanese July 25.

While the Japanese minister, accompanied by his suite, and the Japanese consul were leaving Tien Tsin Aug. 3 they were attacked by a crowd of Chinese soldiers, who seized their baggage and threatened them with personal violence, but the viceroy, Li Hung Chang, quickly sent a force of troops to the scene and suppressed the riot.

DEMOCRATS TO DECIDE IN CAUCUS

They Are In Session This Afternoon Debating On the Tariff.

WASHINGTON, Aug. 7.—The democrats have selected to-day, which is the anniversary of the assembling of the special session of the present congress, for a general caucus meeting to decide the action of the party on the tariff. The call for the caucus came from Representative Bynum of Indiana, one of the members of the ways and means committee. Only thirty-five names were required, but over half a hundred were secured before the house adjourned. Mr. Holman, chairman of the caucus committee, issued a formal announcement summoning the democrats to a caucus at 3 o'clock this afternoon. There will be a battle royal, and although it will be behind closed doors a house caucus is practically a town meeting. The sentiment of the house seems overwhelmingly in favor of accepting the bill passed by the senate and adjourning without further ado. The members are generally convinced the senate will never give in, and they are now ready to take the senate bill rather than no bill at all.

The situation in the conference committee yesterday developed the fact that no general agreement on the bill was in sight. The sugar schedule received a good deal of attention, but was finally dropped from sheer exhaustion. Secretary Carlisle, before he left the city for a trip down the river, submitted the draft of an amendment, fixing the amount of raw sugar necessary to make each grade of refined sugar under ordinary conditions.

Coal and iron were discussed at length, and the statement was made by one of the conferees that on this point the house was more firm than any other. The proposed compromise reducing the duty on coal by installments for a period of years was again suggested by the senate managers and again rejected. They are to meet again this morning, but they have little expectation of accomplishing anything, as the caucus at the present time completely overshadows the conference.

AGAINST ANARCHISTS.

Measure Introduced in the Senate Yesterday.

WASHINGTON, Aug. 7.—The bill for the deportation of anarchists was taken up in the senate yesterday, and Mr. Hill explained its provisions. Unless some action was taken by this government, such as was now before the senate, this country, he said, would soon be the dumping ground for the anarchists of the world. It was not intended to make the belief in anarchy a crime, and therefore no attempt had been made to define anarchy. There was no politics in the bill, and he favored it because he believed it was better than the house bill.

Mr. Lodge (rep., Mass.) expressed the belief that both bills were inadequate for the purpose of restricting immigration, but he was anxious to see some restriction placed on immigration no matter how slight it might be.

Mr. Palmer pointed out the difficulty of dealing fairly with the question and the danger of doing injustice to the harmless socialists while protecting ourselves against the danger of anarchists.

The discussion then took on a legal aspect and hinged upon the right of a country to protect itself against undesirable aliens. After considerable debate and the adoption of some amendments the bill was passed and Messrs. Hill, Faulkner and Chandler were appointed conferees.

Voorhees Is in Favor of Yielding.

WASHINGTON, Aug. 7.—Chairman Voorhees of the senate finance committee has been unable to attend the tariff conferences on account of ill-health, and is still confined to his house. It has been assumed he stood with the senate managers not only for the senate duty on sugar, but also for a duty on coal and iron ore. He announced the contrary in an interview with a reporter who called upon him at his house yesterday and asked for his views. He talked freely, advocating such concessions on the part of the senate as would bring about a speedy agreement, and took strong ground in favor of yielding to the demands of the house for free coal and iron ore.

Must Wait for Stated.

WASHINGTON, Aug. 7.—It is not considered probable the senate will act upon either the Arizona or New Mexico state bills before the final adjournment unless the deadlock should operate to prolong the session unexpectedly.

House Debates Amendments.

WASHINGTON, Aug. 7.—The house spent most of yesterday debating the senate amendments to the Indian appropriation bill providing for the ratification of the treaties with Nez Perce, Yakima and Yuma Indians, but no vote was taken.

COWES, Isle of Wight, Aug. 7.—George Gould's yacht, the Vigilant, carried the stars and stripes to the front yesterday and won the greatest race i which she has been entered on this side of the water. The yankee boat not only fairly defeated the Britannia and Satanita, but showed the British yachtsmen a point or two in the fine work of the yacht, beating them at their own game. The Britannia's crew early saw that they had no chance of winning the race, and turned their whole attention to crowding the Vigilant in order to help the Satanita. That they were unsuccessful the result proved.

In former years most of the voting was done by proxy and appearances indicate that the same rule will be maintained this year. Miss Alice Johnson is still very ill, also the youngest son of Mr. Sturdivant. Rev. Mr. Bray of Lima, and Rev. Mr. Pomfret of Utters Corners, exchanged pulpits last Sunday. Misses Edna Paynter and Florence Stetson drove out to Koshkonong last Thursday. Will Cowles has returned home for a two weeks' vacation. Mrs. Anna McLane and son George, were in town Saturday. Rain will be welcomed here in Lima any time it sees fit to make us a visit.

FOOTVILLE SAW THE CIRCUS.

G. W. Hall's Show Delighted the Amusement Lovers—Lawn Social Friday.

FOOTVILLE, August 7.—G. W. Hall's "greatest show on earth" was with us on Saturday and succeeded in drawing forth the shekels from the unwary, the "fat woman" and "the educated hog" being the chief attractions. Mrs. Emma Fisher of Evansville, is the guest of Mrs. Nettie Carey. A lawn social will be given by the Ladies' Aid Society of the Footville M. E. church at the home of Henry Egerton on Friday evening August 10. Ice cream, cake and fruit will be served. A unique program will be rendered. All are cordially invited to attend. Master Boyd Nott of Janesville, has been spending the past week here visiting friends and relatives. The Disciple Sunday school will hold a picnic in Mr. Hrsting's woods, on Friday, August 17. The Epworth League and Christian Endeavor societies of this place have been invited to go to Center Sunday evening, August 19 and join in a grand rally. There was a good attendance at the missionary meeting at Mr. Harper's Friday afternoon. A number from this place attended the flag raising at Orfordville, last Thursday. Our bachelor merchant drives the most stylish turnout in the city. Ben Bleasdale and Miss Hattie Dann are to have charge of our schools the coming year.

FAIRFIELD NOTES AND COMMENTS.

Lecture by Prof. Adrian—From 105 Degrees Above to Frost.

FAIRFIELD, Aug. 7.—Misses Elma Cutter and Annie Horne visited friends in Whitewater last week. Mr. Patterson of New York, is the guest of his cousin, Mrs. Robinson. Professor Adrian, the state lecturer of the I. O. G. T., gave a very interesting lecture at the church on Sunday evening, and will endeavor to organize a lodge at this place. The change in temperature from 105 degrees in the shade on Wednesday to a frost on Thursday night caused both farmers and corn to shiver. There will be a social at Mr. W. Gage's on Friday evening, August 10. Ladies please provide a picnic supper. A cordial invitation is extended to all. A fine new Mason & Hamlin organ has just been purchased for the Methodist church. Much credit is due to the young people who have been so faithful in planning entertainments during the past few months for the organ fund. Several musicians have tested this organ and all pronounce it as being first class every respect.

FROSTY NIGHTS AT CLEAR LAKE.

Rock County's Resort Cool Enough for Anybody—Tobacco Suffers.

CLEAR LAKE, August 7.—George Buticlost his big horse "Morg" last Saturday. Dr. Roberts from Janesville was up to see him but it was too late to save him so the doctor shot him. Rain is badly needed in this vicinity for tobacco. The tobacco market is rather dull. It was very near a frost in this section some nights last week. In some places it froze a little so it showed on some of the tender vines. The lake is booming with guests now on both sides and nearly every day brings some new ones. Mr. Dennison will give another of his pleasant parties next Wednesday evening and an entertainment before the dance. A are cordially invited to attend. Stacking is nearly finished and some are threshing. Mrs. G. A. Murray of Janesville, visited at Mrs. C. Stockman's last week. Miss Ollie Oleson was also a pleasant caller at Indian Ford.

AFTON WILL HAVE A BUSY WEEK.

Numerous Affairs to Draw the Attention of People These Days.

AFTON, Aug. 7.—Aftonians will have much to engage their attention this week. Tuesday evening Rev. J. F. Carl lectured on temperance at Lawton hall, Wednesday the Baptist Sunday school holds their annual picnic at Miller's park, Wednesday evening the weekly prayer meeting at the Baptist church and on Friday evening the Modern Woodmen meet at the hall and the Social League give an ice cream lawn social at the residence of G. R. Charles. In addition several Afton people contemplate viewing the Scottish games at Janesville on the 10th inst., so the week will be a full one for our people. Miss Hattie N. Otis left Monday for a week's stay at Lacrosse. Miss Jessie Spoon of Janesville, is spending a week with her aunt, Mrs. G. S. Otis.

Death of an Old Shopper Resident.

SHOPIER, August 7.—Vincent Holister Trudell passed away at his home in this place July 28, aged sixty-eight years. He was born in Florida, Montgomery county, N. Y., and was the oldest of the family. He came to Wisconsin in 1856. For years a member of the Methodist church, his funeral was held at the church, Rev. R. K. Manion officiating. The pall bearers were William Wheeler, Frank Culver, Neen Wright, M. C. Enling, S. K. Sweet and Fred Humphrey.

CHANGES IN POSTAGE STAMPS.

Number of Those in Use to be Reduced—List Will be Altered.

Important changes in the denominations of postage stamps are contemplated by the post office department. The principal ones are in the newspaper and periodical series, but the regular series is also to be altered. One of the latter, the ones, twos, threes, fours, fives, sixes, eights, tens and fifteens, which are now in use, will be continued. The present 30 and 90 cent ordinary stamps probably will be discontinued, and 50 cent and \$1, \$2 and \$5 stamps will be added to the series. It is intended to reduce the number of denominations of the newspaper and periodical stamps from twenty-four to twelve or thirteen. The \$1 stamp, now printed for the first time by the Bureau of Engraving and Printing, is the doubtful one, but it will probably be finally decided on favorably to its continued use. The new denominations of the series, either now printed by the bureau for the first time or to be re-issued later are 5, 25 and 50 cents and \$1, \$5, \$10, \$50 and \$100. Those to be dropped out of use are 3, 4, 6, 8, 12, 24, 36, 48, 60, 72, 84, 96 cents, \$1, \$2, \$3, \$6, \$9, \$12, \$24, \$36, \$48 and \$60.

All the postage due stamps have been re-engraved under the present contract and slightly reduced in size from the former output of the contractor. All these changes have been practically approved by the officials, subject, however, to modification if deemed advisable.

SCHOOL BOARD LACKED A QUORUM.

Work Enough On Hand But Members Out of Town.

Only Commissioners Anderson and Clemons presented themselves at the meeting of the school board last evening, and after waiting for an hour for other members of the board, adjourned for want of a quorum. Commissioners Mcvatt and McLean were in Chicago; and Commissioners Cunningham, Goldin and Weisend could not be found.

"I think a special meeting will be called," said Commissioner Anderson. "Some one will have to be appointed with authority to purchase a site for the new high school; besides there are other important matters connected with the new school building that need attention."

POPULISTS IN CONVENTION TODAY.

Hamilton Utley Backed by Them in the Congressional Race.

The populists held their congressional convention in Racine today. J. H. Haviland, James Cleland and Charles Sexton of this city, were elected delegates. John Hyland and William Beals of Avon, and John Stockman of Harmony, were the other delegates who were elected to represent Rock county populists in this convocation. Hamilton Utley of Racine is the probable nominee.

EVANGELIST WELCH DID WELL IN JANESVILLE.

After Paying His Board and Buying What Olive Oil He Needed For His Business He Still Had Marginal Enough to Pay For a Summer Vacation.

Evangelists Welch and Devily left last evening for Chicago, bidding their Janesville followers an affectionate good-bye. They could well afford to lavish a little affection. They had a very profitable season in this city, and they return to the great city with well filled purses. One of the workers remarked to a friend at the supper table last evening that they had about one hundred dollars as the result of their work here; but Mr. Welch was heard to say that they had nearly three hundred dollars. This will relieve the minds of those who grieved because Brother Welch had to plead so hard on Sunday for a contribution of five dollars to pay his ground rent.

The evangelists stole a march on the curious public Sunday morning. At 5 o'clock they congregated on the river bank at the foot of Prospect avenue and a number of converts were baptized. But very few people, not more than a dozen, witnessed the scene.

UPHAM ALWAYS PAID IN CASH.

Orders on Stores Were Issued Only to Accommodate Employees in Need.

George Eastwood is a workingman who resides at 534 Sixth avenue in Milwaukee and is employed by the Milwaukee Sander company. He called at The Sentinel office, holding a copy of the democratic sheet in which was printed an attack upon Major Upham charging him with compelling his employees to take orders on his stores in payment for labor.

"Up to three years ago," he said, "I was employed on a logging train by Major Upham. I worked for him six years. We were always paid in cash and were never asked to buy a cent's worth of goods at Upham's store. We were paid in cash always on the 15th of each month, and there was never any compulsion of any kind to patronize Upham's store. That coupon reproduced to deceive and mislead working people, is nothing but an order of credit. A coupon was issued to a man who wanted to draw pay before it was due. This was a great help to poor people who had just come to Marshfield and had no credit at the stores. You can get all the proof you want, if you wish to verify what I have said. I learned to like and respect Major Upham during the six years I worked for him, and I make this statement because I feel that he is being wronged. All the men that have worked for him will testify to the truth of what I say, I have no doubt."

Prohibition Convention.

There will be a prohibition mass convention for the county of Rock at Milton Junction, Monday, August 13 at 10:30 a. m., for the purpose of placing in nomination candidates for county officers. The prohibition candidate for governor, Captain J. F. Cleghorn, of Clinton, will be present at the convention, and at 8 o'clock p. m. will deliver a public address. By order of county committee.

S. R. Titus, Ch'n.

Less Than Half Rates to Colorado.

On August 10 and 11 the Northwestern line will sell excursion tickets to Denver, Pueblo and Colorado Springs and return at less than one fare for the round trip; good for return passage until September 13, inclusive. For tickets and full information, apply to agents Chicago & Northwestern Railway.

Found an Angel.

Merchant—I am sorry to lose Miss Pinkie's services, but what must be must. May I ask how it is that a wealthy young man like you should have chosen a shop-girl to share your fortune?

De Rich—Three or four of my family made unhappy marriages, and I vowed that I'd never wed a woman who wasn't a born angel, and I know Miss Pinkie is. I have heard three different shopping ladies speak well of her.

Passing of the White Pine.

The Northwestern Lumberman, which a few years ago took the ground that the supply of white pine in the Northwestern states was inexhaustible, now shows by what it believes to be authentic figures, that the shortage in one district alone for the current year will be 700,000,000 feet; and information points to a general shortage in all the Northwestern pine territory, running into billions of feet.

Oh, What a Surprise!

What an agreeable one, too, is experienced by the hitherto misguided individual who has been ceaselessly but vainly dosing for years past in the futile hope of curing constipation, when drastic pills and potions are abandoned for Hostetter's Stomach Bitters, a faithful auxiliary of nature, which does its work without griping or weakening, but always effectually. "Throw physic to the dogs!" and use this benign and thorough laxative, which achieves results which astound as well as those who use it. Not only a regular habit of body, but complete digestion and assimilation are restored by its use. It regulates the liver and kidneys and counteracts a tendency to rheumatism. In no case where it is possible to procure it should its use be delayed. Fortify with it against malaria.

A Man With a Double Heart.

When the Mercer county, N. J., medical association was in session a few years ago a colored individual named Wm. King came before them for examination. He claimed to have two hearts, but a careful examination revealed the fact that his heart was double instead of being two separate blood-pumping organs. Besides having two distinct pulsations, which could easily be felt, he had wonderful control over his double life engine, being able to stop its beating for sixty seconds without inconvenience.

HARPER'S HISTORY OF THE WAR

Harper's Pictorial History is universally recognized as the best history of the war yet published. This superb work has never been sold for less than \$16 to \$30. It has been sold only by subscription and but a very few men have been able to buy it.

The pages are the same size as Harper's Weekly and the work contains all the illustrations appearing in that great paper during the war. The work was edited by Richard Grant White and Henry M. Alden and is authentic, complete and reliable.

We have made arrangements whereby we can furnish Gazette subscribers with this splendid history of twenty-six parts at ten cents a part. These twenty-six parts will contain over one thousand war pictures and will make two handsome volumes when bound.

Many official documents of priceless historic value are quoted in full in the copious foot notes, such for instance as Lincoln's inauguration speeches, articles of federation of the early states, constitution of the United States, ordinance of secession, and many important papers, speeches, etc. The war story is consecutive and very fascinating. The introductory chapters, leading up to the struggle, and the chapter on the reconstruction period, are by some of the first writers of the age.

AXMEN OF THE PACIFIC COAST.

Two Experts to Be Sent to Australia to See What They Can Do.

There are probably no more skillful axmen in the world than the wood-choppers of the Pacific Northwest. Some of them can saw or chop a tree that will fall in any desired direction, and it is even said that they can drive a stake into the ground and fell a tree so that in striking the ground it shall bury the stake out of sight. Two of the picked lumbermen of the Northwest are to be sent over to Australia to compete with their fellow craftsmen in that part of the world. The following letter to the Puget Sound Lumberman from Latrobe, Tasmania, explains the manner of the competition in which they will be entered: "In your issue of September, 1893, you mentioned the United Australasian Axmen's association, and also the fact that you have splendid axmen in the Pacific Northwest. Now these latter are just what we want to reach, because we want the best men among them to come and see if they can compete with the Tasmanians and Australians in wood-chopping contests. We hold our next annual contest in Ulverston, Tasmania, Nov. 28 and 29, 1894, for which I enclose a program. We are offering liberal prizes, and if two competitors come from the Pacific Northwest—and come by reference from you that they represent your country in these contests—we will guarantee them \$25 (\$125) each for traveling expenses, or \$50 (\$250) for the two; besides we will give free entry to all contests. They will have to meet our champions on level terms in the championship contests, but if they enter handicaps they will get starts from our best men. Private matches could also be arranged.

AUSTRALIAN BOOMERANGS.

Pete Tells What a Clever Bushman Did With One of Them.

"Yes, ther cur'osities!" said Australian Pete, when the subject of boomerangs was mentioned.

"You've seen the mysterious stick thrown?"

"Well, I reckon!"

"Is it true that they cut so many strange dices in the air?"

"Can't be described. I remember once seein' a bushman named Hullaloo throw a boomerang in an exhibition before some English officers. He was a lithe, wiry fellow, an' didn't look as though he could knock down a cat. Takin' the crooked stick in his hand he fixed his gaze on a spot about seventy-five yards in front of him, an' giving the stick an awkward whirl he struck the exact spot. Then it bounded 300 feet in the air, an' came flutterin' down like a wounded bird, until within six feet o' the ground, when it flew across in front of us an' began to circle gracefully upwards. It went, an' went—"

"Ah, and returned, killing a rabbit fifty yards behind you?"

"No, sir!"

"Perhaps killed a dove on a tree far to the right—"

"Not much!"

"Came down without hurting anything?"

"No, sir! It never came down. It just kep' right on goin'!"

FEW WENT TO DEVIL'S LAKE.

Janesville Sent Less Than a Baker's Dozen to the Famous Resort.

Very few Janesville people joined the Devil's lake excursion party, which passed through this city at 9:45 o'clock this morning on the Chicago & Northwestern road. J. C. Ehlman and family, N. Fredericks and family, and Superintendent W. R. Proudfoot of the street railway, and Mrs. Proudfoot, were among those who joined the excursionists here.

The train, when it reached Janesville at 9:30 o'clock, was in two sections, there being twenty coaches, all loaded to the platform steps, the aisles being crowded with excursionists who were willing to stand. A large number of Janesville people were at the depot expecting to join the party, but on seeing the crowded condition of the cars concluded to remain at home, consequently but few crowded into the cars here.

GUSTAVE FROHMAN'S COMPANIES.

He Has Twelve Good Ones On the Road This Season.

Gustave Frohman, whose company presents the Charity Ball here tomorrow night has organized twelve companies for use outside of the four or five principal cities of the country, and these companies are to play comedies exploited heretofore under the management of Charles and Daniel Frohman. Thus there will be four Janesville companies, two devoted to Charley's Aunt, and one each in the Charity Ball, Girl I Left Behind Me, Lady Windermere's Fan, Lost Paradise, Men and Women and Masked Ball. Several will be seen in Janesville during the season.

The Chicago Herald says: "Such organizations, with good plays are far better than any of the barnstorming companies whose pleasure it has been to devastate the country."

HE HAD TO WAIT.

The Man Wanted to Get Married, But the Law's Delay Blocked Progress.

A man with a whip in his hand and muddy cowhide boots upon his feet tramped up into City Clerk Allen's room in Lewiston, Maine, and demanded: "Can I get married here?"

"You can take the first steps towards it."

"First steps? I have taken the first steps for the last six or seven years, and now I'm going to finish it up. I want to be married right off. My gal is down there holdin' the horses, and if you'll marry me, I'll hitch 'em and she'll come up. Hey?"

"You will have to get published and wait a while before you get married."

"Wait! Wait! By the sweet apple tree, I won't wait. Jane's been tellin' me to wait all these years, and I'll be cussed if I'll wait. Wait! Pooh! See here, young fellow, if you don't marry me I'll have you discharged. I'm forty years old and my own man. I won't be fooled with."

The clerk finally explained to the man that the law required him to wait, and he consented and was published.

The Alabama Election.

BIRMINGHAM, Ala., Aug. 7.—Notwithstanding the bitterness that has existed since the campaign began the election yesterday for state officers passed off very quietly. There were some minor disturbances, but no serious affairs. The campaign headquarters of the Kolbites are in this city, while the regular democracy have theirs in Montgomery. Figures began coming in as early as 6 o'clock, and from points it will take two or three days before the exact returns can be secured. Both sides claim the victory.

Expect a Decisive Battle.

WASHINGTON, Aug. 7.—170 advices were received in Washington yesterday concerning the situation in the Orient and the officials are beginning to believe this is the calm that precedes the storm. It is known that both Japan and China are making efforts for a decisive battle, and the announcement that an engagement has occurred would not be surprising. Every one interested in the matter is on the qui vive and the news from the east is watched for with a great deal of interest.

PROOF OF MERIT

Read What Users of Majestic Steel Ranges Have to Say:

Messrs. A. H. Sheldon & Co.

Gentlemen: The Majestic Steel Range you placed in the County jail, last October we have used constantly since. It does the work absolutely to perfection, bakes beautifully and evenly, uses little fuel. Works equally well with wood or hard coal. It is by far the best cooking apparatus I have ever used.

Respectfully Yours,
J. L. BEAR, Sheriff Rock County.

Messrs. A. H. Sheldon & Co.

I am using a Majestic range bought of Lowell Hardware Co. It works perfectly with either coal or wood. Bakes evenly with much less fuel than any other stove I ever used. I would not part with it if I could not get another.

The above Range was taken from Mr. Frank Parker by Mr. Lowell and sold to Mrs. Knowles

MRS. HARRY T. KNOWLES,
Janesville, Wis., August 4, 1894.

A. H. Sheldon & Co., Janesville:
GENTLEMEN: I have been using one of the Majestic Ranges for a year, and find it perfect in all respects. I have used both coal and wood, and find it very economical.

Yours Respectfully,
C. C. BENNETT,
Janesville, Wis., August 2, 1894.

A. H. Sheldon & Co., Janesville:
I have been using a Majestic Range for the past year and a half, and I think it beyond question the most complete Range I ever used. I have used hard coal, soft coal and wood and it works equally well with all. It requires but half of the fuel that is used in an ordinary stove. It is just as good today as when placed in my kitchen. I heartily endorse the Majestic. It is a jewel.

MRS. H. C. PETERS,
257 Academy Street.

Madison, July 18, '94.

Summer & Morris, Hardware Dealers: Gentlemen: You ask for my opinion of your range. After eight days' use I find it has not a fault and that it has more good qualities than even its makers have claimed. It is exceedingly economical and doing its work with so little fuel, makes quick cooking possible after the fire is no longer needed. This with other characteristics and its own adaptability to both wood and coal make it acceptable in the summer kitchen. Ordinarily using wood, we burn hard coal on laundry days, and I shall detail yesterday's performance as a proof of general excellence. The laundry ironed from 7 a. m. to 2:30 p. m.: for breakfast we had mutton chops deliciously broiled in the oven. rolls and coffee; for dinner, stewed lamb, rice, peas, and a pudding; and the entire amount of fuel consumed was a trifle more than half a bucketful of coal. Very truly,
MRS. JUDGE BALZELL.

Madison, July 18, 1894.

Summers & Morris, Gentlemen: Having used a combination Majestic Range I cannot praise it too highly for its good baking qualities and its water heating capacity. And at the same time its economical consumption of fuel being two-thirds less than any range I have yet come in contact with. Being in the machine business all my life I have thoroughly examined the Range and find it perfectly and substantially constructed in every respect and cannot recommend it too highly to anyone wanting a perfect range.

CAMP BLUFF, at Lake Koshkonong, is one of the best equipped camps around the lake. A supply of seasonable delicacies arrives daily from Chicago. The cuisine is in the hands of a competent French cook brought by the party from the city. The party is composed of about twenty, headed by Mrs. R. A. Bigelow and son, Chicago; Mrs. Alice Van Etta Smith, Janesville; Mr. and Mrs. George Van Etta, Milton; Mrs. J. B. McLean, Janesville; Miss Blanche Smith, Chicago; A. O. Vincent and others.

At the Milwaukee Scotch picnic last Wednesday, William Johnston of Toronto, took first prize for Highland and sword dancing; Maude Gordon first for girl's dancing and F. Beaton first for pipe playing. All these parties with others almost equally good have been engaged by the Caledonian society for their games here Friday. It will certainly be a great gathering of the clans, and a splendid entertainment for all.

A new entertainment fad is having a successful run. Guests to select parties are requested to bring their "oldest pictures." Some awful photographs are carried to the house of the entertainer. These are placed on exhibition, and to the lady or gentleman who guesses the names of all or to a majority of the originals a prize is awarded.

BORT, Bailey & Co. have again come to the front in low prices, by giving the ladies the most beautiful line of silks at prices way below all competitors. The latest offer is their entire line of Cheney's printed India silks at 47 1/2 cents. You need have no fear; this firm will always come to the front and beat any price made by any competitor.

Now is the best time to go and see land in Clark county, for sale by the C. S. Graves Land Co. The present price will be the lowest for which it will ever be offered. Why rent a farm or pay a high price for it when you can buy of this company at only \$7.50 per acre, easy terms.

DICK DUNN, the senior member of the firm of Dunn Bros. is out soliciting orders every morning. Leave word at the store for him, telephone 179 or call him as he passes your door. You will save time and bother and be well taken care of. Dunn Bros.

We will furnish the Clay weave worsteds in sack and cut-away suits at \$5 to \$7 less than last year's price; \$18.00 suits \$12 to \$13; \$30.00 \$12.50 and \$13.00, and \$22.00 \$12.50 to \$15. Don't fail to see our lines of worsted suits. T. J. Ziegler.

The great wrestling match at the Scotch games between Evan Lewis, John Kline and others will be by far the most interesting event of that kind ever seen in Janesville. Lewis is in hard training expecting to meet a "foeman worthy of his steel."

CAPTAIN BU CHOLZ makes the objection that his boat was not on fire Sunday afternoon but that the smoke was caused by overheating the base of the engine. The oily planks smoked to such a degree as to be disagreeable to the passengers. He says that there was no danger.

MRS. J. W. RAGAVICH (formerly Miss Susie Harlow), who has been visiting her parents in this city for the past three weeks, went to Sharon this morning expecting to return tomorrow. On Friday of next week she leaves for her home in Prescott, Arizona.

PEOPLE from all over Rock, Walworth, Green and Dane counties are making preparations to attend the popular Scotch games on the fair grounds Friday. This has grown to be the great event of the summer season. Admission twenty-five cents.

MR. and Mrs. Charles Bostwick, Mr. and Mrs. Frank Wheelock, Mrs. G. M. Hanchett, Mrs. C. C. McLean, and Misses Etta Hanchett, Alice Heimstreet and Cora Sutherland are in camp at Lake Koshkonong. They are established at "Johnson's."

WILLIAM PAUL, of Milton Junction, has a tug-of-war team which he is going to bring to the games on Friday, and he says that if they can not pull any team that we can produce in Janesville, he will carry them all home on his back.

WHEN we say we are selling buggies for less money than any other dealer in Janesville, we are making a bull's eye on the target of truth. Two handsome phaetons very, very, cheap. Janesville Carriage Works.

THERE is no "mebbe" about our bargains; they're as certain as death, as sure as taxes and as dependable as the rock-ribbed hills of New England. Best buggies on earth. We can name lowest prices in the city. Janesville Carriage Works.

We will put on sale in the morning the balance of our Cheney Bros. 24 inch \$1.00 silks at 47 1/2 cents a yard. If there is any lower figure made to you come to us before you buy and we will cut the price made by others. Bort, Bailey & Co.

ONE thousand dollars' worth of new dress goods to arrive this week. It is but a drop in the bucket compared to what we will receive shortly. This first shipment consists of medium price mixtures at fifty cents to one dollar a yard. By buying during the quiet of summer months we not only get the very lowest prices, but we get the choicest things in each line by ordering early. We are headquarters for silks, dress goods, carpets, etc. Keep your eye on us. Remember when we talk we make no more noise over our large purchases than small stores do over one quarter as much. THE case of the state against Benjamin Serms of Edgerton, was called in the municipal court and adjourned until August 8, at which time the defendant will be tried by a jury.

MISS DAISY HATFIELD, who is attending a seminary in Pennsylvania, is in the city, spending her vacation visiting her father, D. H. Hatfield, of the Standard Oil Company.

HEDGES ALL DEAD AND FARMERS MAD

MONEY SPENT ON HONEY LO-
CUST ALL WASTED.

Committee From this County Visited Michigan Four Years Ago and Were Satisfied that the Plants Would Live But the Winters Have Proved Too Severe.

Bare and ragged disappointment are the honey locust hedges on which Rock county farmers have lavished money and labor. A committee of Rock county farmers went over four years ago into Michigan where the honey locust hedge has been a pronounced success, and were satisfied that such a hedge as they inspected across the lake would be just the thing for the prairie farms of Wisconsin. Men interested in the honey locust hedge assured Rock county farmers that the honey locust would grow here, and guaranteed to produce a first-class hedge for all who invested. Many did invest, agreeing to pay twenty-five cents a rod for four years, the Michigan syndicate guaranteeing a successful hedge at the end of the fourth year, all repairs, and in fact the planting and re-planting and trimming of the trees were to be done by the company during the four years. Miles of this hedge were sent out three years ago last spring. The first year the hedges grew finely and those who had made contracts were congratulating themselves and one another that they would soon be in possession of a durable and successful fence at the cost of only one dollar a rod. The first winter a large number of the plants were killed by the severe winter weather. The dead plants were all replaced in the early spring. The second winter many more of the first setting died and were replaced. The winter was the same, and farmers realized that our winters were too severe for the honey locust to thrive, and when the company's men appeared to set plants they were so informed, and also that the Rock county farmers would not pay any more for the hedge.

Osage Orange No Better. "It will do very well if protected," said Captain W. T. Vankirk, who planted a hedge on his farm west of the city. "My hedge amounts to nothing. One little piece protected by the tobacco sheds looks well, but the rest of it is worthless. It winter kills terribly, and when the dead plants or trees are removed or rot, the hedge is left full of holes, so that it is worthless as a fence. My hedge is no better than any other in the county; they are all satisfied that it will not be of use as a hedge." Much of this kind of hedge was set out in La Prairie and Harmony three years ago. All of it has turned out badly and all who invested feel sorely disappointed at the result. So far their experiments with the honey locust hedge have cost seventy-five cents a rod, with an additional twenty-five cents a rod cost in sight, should the Michigan men insist on their contracts. Many experiments have been made by Rock county farmers in growing hedges for fence purposes. None of them have been successful owing to the severe winters. Osage orange was experimented with in an early day, but this, claimed to be a hardy hedge, proved very unsuccessful, and was given up.

Garland Steel Ranges.

We never have had occasion to misrepresent our goods. When we can't sell them on their merits we go out of business. Our would-be competitors can kick and blow, howl and snort. It is no use. We have the best steel range on earth. The good people of Janesville have eyes and sense enough to tell the difference between a good and an inferior range. All we ask is for you to compare our steel range with others of inferior make, then we have no fear of results. LOWELL HARDWARE CO.

JANESVILLE AFTER IOWA SCALPS.

Athletics Will Play the Council Bluffs Maroons Next Tuesday.

Janesville boys are not satisfied with winning one game from the Council Bluffs Maroons. They want another. They beat the red jackets in Beloit yesterday by a score of 11 to 6. Schicker and Dixon played the points for Janesville, and Schicker was at his best. The game was played in Allen's park, over in Illinois, and the attendance was very small. Thursday afternoon the two nines will meet here and the game will be for blood. The Iowa boys put up their share of the gate receipts against an equal sum from Janesville and a good many side bets will be made. Manager McGinley says his nine can win and will strengthen his outfield by adding Warner, of Edgerton. Warner will probably play third base and John Doran replace Roberts in right field.

DORSEY OBJECTED TO THE COURT.

Too a Change of Venue From Judge Phelps on the Ground of Prejudice.

Patrick Dorsey did not think kindly of Judge Phelps this morning. After Assistant District Attorney Sloan filed the information charging larceny from the person, Dorsey entered a plea of not guilty, and at once filed an affidavit for a change of venue to the circuit court on the ground of prejudice of the municipal judge. The change was granted and Dorsey was admitted to bail in the sum of \$300. The complaining witness, Alonzo Howe, of Marinette, gave a fifty dollar bond to appear as a witness when wanted. Dorsey is charged with taking Howe's watch. If the charge is sustained, it will probably send Dorsey to Waupun.

EJECTING THE CITY IS THE NEXT STEP

BATES AND CARPENTER PRO-
CEED AGAINST BELOIT.

Papers Have Been Served on the Mayor and Clerk of the Line City Giving Notice of Proceedings to Vacate Mechanics' Green—Plaintiffs Confident of Success.

The summons in the suit of J. W. Bates and Edwin F. Carpenter against the city of Beloit to secure possession of the Mechanics' Green property has been served upon the mayor and city clerk. L. F. Patten represents the claimants' interests. Besides the petition for a re-plating there has been an action begun to eject the city from the premises. The two blocks are valued at \$18,000, and a half interest will belong to Miss Simms after the matter is decided.

"There is no question about our winning," said Mr. Carpenter today. "Everybody who has looked into the case carefully says the same thing. We have half a dozen supreme court decisions bearing directly upon this point."

It is understood that J. B. Dow, the Line City real estate man undertook the suit once but gave it up when he saw how bitter the feeling was among Beloit people. He was told he would lose all his business if his attempt to secure a title to the Green was not abandoned.

HOW TO DRESS TALMAGE'S TOPIC

DR. TALMAGE ON THE TRAGEDY OF DRESS.

Crimes Innumerable Have Their Origin in the Cravings of Men and Women for Fine Dress—Arnold Betrayed His Country for His Wife's Attire.

BROOKLYN, Aug. 5.—Rev. Dr. Talmage, who is now in Melbourne, Australia, on his round-the-world tour, has chosen as the subject of his sermon for to-day through the press: "The Tragedy of Dress," the text selected being I Pet. iii, 3-4: "Whose adorning let it not be that outward adorning of plaiting the hair, and the wearing of gold, or of putting on of apparel; but let it be the hidden man of the heart."

That we should all be clad is proved by the opening of the first wardrobe in Paradise, with its apparel of dark green. That we should all, as far as our means allow us, be beautifully and gracefully appareled, is proved by the fact that God never made a wave but he gilded it with golden sunbeams, or a tree but he garlanded it with blossoms, or a sky but he studded it with stars, or allowed even the smoke of a furnace to ascend but columned and turreted and domed and scrolled it into outlines of indescribable gracefulness. When I see the apple orchards of the spring and the pageantry of the autumnal forests I come to the conclusion that if nature ever does join the church, while she may be a Quaker in the silence of her worship, she never will be a Quaker in the style of her dress. Why the notches of a fern leaf, or the stamen of a water lily? Why, when the day departs, does it let the folding doors of heaven stay open so long, when it might go in so quickly? One summer morning I saw an army of a million spears, each one adorned with a diamond of the first water—I mean the grass with the dew on it. When the prodigal came home his father not only put a coat on his back but jewelry on his hand. Christ wore a beard. Paul, the bachelor apostle, not afflicted with any sentimentality, admired the arrangement of a woman's hair when he said, in his epistle, "If a woman have long hair, it is a glory unto her." There will be a fashion in heaven as on earth, but it will be a different kind of fashion. It will decide the color of the dress; and the population of that country, by a beautiful law, will wear white. I say these things as a background to my sermon, to show you that I have no prim, precise, prudish or cast iron theories on the subject of human apparel. But the goddess of fashion has set up her throne in this world, and at the sound of the timbrels we are all expected to fall down and worship. The old and new testament of her Bible are the fashion plates. Her altars smoke with the sacrifice of the bodies, minds and souls of ten thousand victims. In her temple four people stand in the organ loft, and from them there comes down a cold drizzle of music, freezing on the ears of her worshippers. This goddess of fashion has become a rival of the Lord of heaven and earth, and it is high time that we unlimbered our batteries against this idolatry. When I come to count the victims of fashion, I find as many masculine as feminine. Men make an easy target against woman, as though she were the chief worshiper at this idolatrous shrine, and no doubt some men in the more conspicuous part of the pew have already cast glances at the more retired part of the pew, their look a prophecy of a generous distribution. My sermon shall be as appropriate for one end of the pew as for the other.

Men are as much the idolaters of fashion as women, but they sacrifice on a different part of the altar. With men the fashion goes to cigars and club rooms and yachting parties and wine suppers. In the United States the men chew up and smoke one hundred millions of dollars' worth of tobacco every year. That is their fashion. In London, not long ago, a man died who started in life with seven hundred and fifty thousand dollars, but he ate it all up in gluttonies, sending his agents to all parts of the earth for some rare delicacy for the palate, sometimes one plate of food costing him three or four hundred dollars. He ate up his whole fortune, and only one guinea left; with that he bought a woodcock, and had it dressed in the very best style, ate it, gave two hours for digestion, then walked out on Westminster bridge and threw himself into the Thames, and died, doing on a large scale what you and I have often seen done on a small scale. But men do not abstain from millinery and elaboration of skirt through any superiority of humility. It is only because such appendages would be a blockade to business. What would sashes and trains three and a half yards long do in a stock market? And yet men are the disciples of fashion just as much as women. Some of them wear boots so tight they can hardly walk in the paths of righteousness. And there are men who buy expensive suits of clothes and never pay for them, and who go through the streets in great stripes of color like animated checkerboards. I say these things because I want to show you that I am impartial in my discourse, and that both sexes, in the language of the surrogate of office, shall "share and share alike." As God may help me, I shall show you what are the destroying and deathful influences of inordinate fashion.

The first baleful influence I notice is in fraud, illimitable and ghastly. Do you know that Arnold of the revolution proposed to sell this country in order to get money to support his wife's wardrobe? I declare here before God and this people that the

ments in this country is sending more business men to temporal perdition than all other causes combined. What was it that sent Gilman to the penitentiary, and Philadelphia Morton to the watering of stocks, and the life insurance presidents to perjured statements about their assets, and has completely upset our American finances? What was it that overthrew the United States secretary at Washington, the crash of whose fall shook the continent? But why should I go to these famous defaultings to show what men will do in order to keep up great home style and expensive wardrobe, when you and I know scores of men who are put to their wits' end, and are lashed from January to December in the attempt. Our politicians may theorize until the expiration of their terms of office as to the best way of improving our monetary condition in this country; it will be of no use, and things will be no better until we learn to put on our heads, and backs, and feet, and hands no more than we can pay for.

There are clerks in stores and banks on limited salaries who, in the vain attempt to keep the wardrobe of their family as showy as other folk's wardrobes, are dying of muffs, and diamonds, and shawls, and high hats, and they have nothing left except what they give to cigars and wine suppers, and they die before their time and they will expect us ministers to preach about them as though they were the victims of early piety, and after a high class funeral, with silver handles at the side of the coffin, of extraordinary brightness, it will be found out that the undertaker is cheated out of his legitimate expenses! Do not send me to preach a funeral sermon of a man who dies like that. I blurt out the whole truth, and tell that he was strangled to death by his wife's ribbons! Our countries are dressed to death. You are not surprised to find that the putting up of one public building in New York cost millions of dollars more than it ought to have cost, when you find that the man who gave out the contracts paid more than \$500,000 for his daughter's wedding dress. Cashmires of \$1,000 each are not rare on Broadway. It is estimated that there are 10,000 women in these two cities who have expended on their personal array \$4,000 a year!

What are men to do in order to keep up such wardrobes? Steal—that is the only respectable thing they can do! During the last fifteen years there have been innumerable fine businesses shipwrecked on the wardrobe. The temptation comes in this way: A man thinks more of his family than of all the world outside, and if they spend the evening in describing to him the superior wardrobe of the family across the street, that they can not bear the sight of, the man is thrown on his gallantry and on his pride of family, and, without translating his feelings into plain language, he goes into extortion and issuing of false stock, and skillful penmanship in writing somebody else's name at the foot of a promissory note; and they all go down together—the husband to the prison, the wife to the sewing machine, the children to be taken care of by those who were called poor relations. Or for some new Shakespeare to arise and write the tragedy of human clothes.

Act the first of the tragedy.—A plain but beautiful home. Enter, the newly-married pair. Enter, simplicity of manner and behavior. Enter, as much happiness as is ever found in one home.

Act the second.—Discontent with the humble home. Enter, envy. Enter, jealousy. Enter, desire of display.

Act the third.—Enlargement of expenses. Enter all the queenly dress-makers. Enter, the French milliners.

Act the fourth.—The tip-top of society. Enter, princes and princesses of high life. Enter, magnificent plate and equipage. Enter, everything splendid.

Act the fifth, and last.—Winding up of the scene. Enter, the assignee. Enter, the sheriff. Enter, the creditors. Enter, humiliation. Enter, the wrath of God. Enter, the contempt of society. Enter, death. Now, let the silk curtain drop on the stage. The farce is ended and the lights are out.

Will you forgive me if I say in tersest shape possible that some of the men have to forge and to perjure and to swindle to pay for their wives' dresses? I will say it, whether you forgive me or not.

Again, inordinate fashion is the foe of all Christian alms-giving. Men and women put so much in personal display that they often have nothing for God and the cause of suffering humanity. A Christian man cracking his Palais Royal glove across the back by shutting up his hand to hide the 1 cent he puts into the poor-box! A Christian woman, at the story of the Hottentots, crying copious tears into a \$25 handkerchief, and then giving a 2 cent piece to the collection, thrusting it down under the bills so people will not know but it was a \$10 gold piece! One hundred dollars for incontinence to fashion; 2 cents for God. God gives us 90 cents out of every dollar. The other 10 cents by command of his Bible belong to him. Is not God liberal according to this tithing system laid down in the Old Testament—is not God liberal in giving us 90 cents out of \$1, when he takes but ten? We do not like that. We want to have 99 cents for ourselves and 1 cent for God.

Now, I would a great deal rather steal 10 cents from you than from God. I think one reason why a great many people do not get along in worldly accumulation faster is because they do not observe this divine rule. God says: "Well, if that man is not satisfied with 90 cents of a dollar, then I will take the whole dollar, and I will give it to the man or woman who is honest with me." The greatest obstacle to charity in the Christian church to-day is the fact that men expend so much money on their table,

and women so much on their dress they have got nothing left for the work of God and the world's betterment. In my first settlement at Belleville, N. J., the cause of missions was being presented one Sabbath, and a plea for the charity of the people was being made, when an old Christian man in the audience lost his balance, and said right out in the midst of the sermon: "Mr. Talmage, how are we to give liberally to these grand and glorious causes when our families dress as they do?" I did not answer that question. It was the only time in my life when I had nothing to say!

Invidious fashion also belittles the intellect. Our minds are enlarged or they dwindle just in proportion to the importance of the subject on which we constantly dwell. Can you imagine anything more dwarfing to the human intellect than the study of fashion? I see men on the street who, judging from their elaboration, I think must have taken two hours to arrange their apparel. After a few years of that kind of absorption, which one of McAllister's magnifying glasses will be powerful enough to make the man's character visible? They all land in idleness. I have seen men at the summer watering-places, through fashion, the mere wreck of what they once were. Sallow of cheek. Meagre of limb. Hollow at the chest. Showing no animation save in rushing across a room to pick up a lady's fan. Simpering along the corridors, the same compliments they simpered twenty years ago. A New York lawyer at United States hotel, Saratoga, within our hearing, rushed across a room to say to a sensible woman, "You are as sweet as peaches!" The fools of fashion are myriad. Fashion not only destroys the body, but it makes idiotic the intellect.

The most ghastly death beds on earth are the one where a man dies of delirium tremens and the other where a woman dies after having sacrificed all her faculties of body, mind and soul in the worship of fashion. My friends, we must appear in judgment to answer for what we have worn on our bodies as well as for what repentances we have exercised with our souls. On that day I see coming in, Beau Brummel of the last century without his cloak, like which all England got a cloak, and without his cane like which all England got a cane; without his snuff box, like which all England got a snuff box—he, the top of ages, particular about everything but his morals; and Aaron Burr, without the letters that down to old age he showed in pride, to prove his early wicked gallantries; and Absalom without his hair; and Marchioness Pompadour without her titles; and Mrs. Arnold, the belle of Wall street, when that was the center of fashion, without her frumpiness of vesture.

And in great haggardness they shall go away into eternal expatriation; while among the queens of heavenly society will be found Vashti, who wore the modest veil before the palatial bacchanals; and Hannah, who annually made a little coat for Samuel at the temple; and Grandmother Lois, the ancestress of Timothy, who imitated her virtue; and Mary, who gave Jesus Christ to the world; and many of you, the wives and mothers and sisters and daughters of the present Christian church, who through great tribulation are entering into the kingdom of God. Christ announced who would make up the royal family of heaven when he said, "Whosoever doeth the will of God, the same is my brother, my sister, my mother."

SURROUNDED BY MYSTERY! A Great Mistake.

A recent discovery is that headache, dizziness, confusion of the mind, etc., are due to derangement of the nerve centers which supply the brain with nerve force; that indigestion, dyspepsia, neuralgia, wind in stomach, etc., arise from the derangement of the nerve centers supplying these organs with nerve fluid or force. This is likewise true of many diseases of the heart and lungs. The nerve system is like a telegraph system as will be seen by the accompanying cut.

The little white lines are the nerves which carry the nerve force from the nerve centers to every part of the body, just as the electric currents conveyed along the telegraph wires to every station, large or small. Ordinary physicians fail to regard this fact, instead of treating the nerve centers for the cause of the disorders arising therefrom they treat the parts affected.

Franklin Miles, M. D., LL. B., the highly celebrated specialist and student of nervous diseases, and author of many noted treatises on the latter subject, long since realized the truth of the statement, and his Restorative Nerve is prepared on that principle. Its success in curing all diseases arising from derangement of the nervous system is wonderful, as the thousands of unsolicited testimonials in possession of the company manufacturing the remedy amply prove.

Dr. Miles' Restorative Nerve is a reliable remedy for all nervous diseases, such as headache, nervous debility, prostration, sleeplessness, dizziness, hysteria, sexual debility, St. Vitus' dance, epilepsy, etc. It is sold by all druggists on a positive guarantee, or sent direct by the Dr. Miles Medical Co., Chicago, on receipt of price, \$1 per bottle, six bottles for \$5, express prepaid.

Restorative Nerve positively contains no opiates or dangerous drugs.

AMUSING FRIVOLITIES.

Lady—How is this insect powder to be applied? Assistant, absent-minded—Give 'em a teaspoonful after each meal, madam.

"Dah ain' much practical use," said Uncle Eben, "in de kind ob penitence dat comes after a man's done et de chicken what he gathered the night before."

Hicks—Look at Sniggs flirting with the girls over there. I thought you said he was a woman hater. Wicks—So he is, but the woman he hates is not here.

Visitor—Well, Tommy, do you think you will ever be president of the United States? Tommy—Oh, I don't know. Mebbe I'll try for it after I get too old to be a pitcher.

"Burglars robbed me last night of \$350 worth of jewelry, but they didn't get my cash." "How was that?" "The jewelry was in the burglar-proof safe, and my money was in my wife's pocket."

"Can any little boy here," asked the visitor, "give me an example of the expansion of substance by heat?" "I can," said Tommy. "Our dog's tongue is twice as long now as it was last winter."

"Dearest," said she, "suppose a bull should attack us as we are crossing the pasture, what would you do?" "That's an awful queer question, Mabel. You forget I was the greatest sprinter Yale ever had."

"You seem to be in splendid health," said his friend. "I thought you were suffering from dyspepsia." "So I was," replied Swintles, "but I got hold of the recipes my wife got at a fashionable cooking school and burnt 'em."

In one of the Glasgow schools a young boy came himself for admittance. The head master asked his name. The boy in reply said his name was Jock. "But what is your father's name?" "My fayther's caed after me."

A gentleman who had been allured by the announcement of a quiet country hotel in the North of England came down the morning after his arrival complaining that his boots had been outside his door all night and until 8 o'clock that morning and nobody had touched them. The landlord, who, in his shirt sleeves, was tipped back in a chair, beamingly remarked: "Law bless ye, sir, ye might left yer purse out there all night; nobody would have touched it. Honest I'll look down here, I tell ye."

Milwaukee Excursion. The Chicago, Milwaukee & St. Paul railway will sell excursion tickets to Milwaukee at a fare and a third for the round trip, August 13 to 17, good for return until August 18, on account of Milwaukee races.

The Intelligent Juror.

A well-known lawyer on circuit in the north of England, curious to know how a certain juryman arrived at his verdict, meeting him, one day, ventured to ask. "Well," he replied, "I'm a plain man, and like to be fair to every one. I don't go by what the witnesses say, and I don't go by what the lawyers say, and I don't go by what the judges say; but I look at the man in the dock, and I says, 'He must have done something or he wouldn't be there,' so I brings 'em all in guilty."—Argonaut.

CURES OTHERS

Mrs. J. H. LANSING, of South Glen Falls, Saratoga County, N. Y., writes: "After my third child was born, I barely gained strength enough in two years' time, so as to be able to crawl about to accomplish the little house work that I had to do, and that only by lying down to rest many times each day; had sick headache very often, many pains and aches all the time. After I had taken one bottle of your 'Favorite Prescription' I could see a great change in my strength and less sick headaches. Continued taking the medicine until I had taken seven bottles of the 'Favorite' and one of the 'Golden Medical Discovery.' I am now able to do housework for myself and husband and two children, aged nine and five. I also take dressing, and enjoy walking a mile at a time, when I can have the time to do so. And I am sure it is all due to Dr. Pierce's Favorite Prescription as I know I was failing fast before I commenced to take it." Sold by medicine dealers everywhere.

FIRE COMBUSTION.

Eight Parts of Oxygen to One of Hydrogen Makes a Hot Fire.

In the combustion of fuel for boilers it is demonstrated, though not in accordance with common supposition, that coke is better than coal, and charcoal better still for producing intense heat, because of the larger percentage of carbon they contain. The point in this case is thus explained: Carbon requires for its combustion two pounds of oxygen to one pound of carbon, and hydrogen about eight parts of oxygen to one of hydrogen—combustion being simply the uniting of a substance with the oxygen of the air in such a way that they produce heat; in the case of carbon, then, the combination of two pounds of oxygen and one pound of carbon produces carbonic acid gas, and the production of 14,500 heat units, and the combination of two parts of carbon and two parts of oxygen produces only 8,800 heat units for the two pounds of carbon, against 14,500 heat units for one pound of carbon where the proper supply of air is at hand. The action arises, it is thought, from the fact that when the air passes through the fuel it takes the proper combustion, but, passing further on through the bed of fuel, takes up an additional increment of carbon, and the heat generated by the perfect combustion of the first particle of carbon disappears to a large extent in the work of turning the other particles of carbon into a gas.

RABBI KRAUSKOPH.

Now Gone to Russia in Behalf of the Complaining Jews.

The treatment to which the Jews in Russia are alleged to have been subjected by the government has aroused deep indignation and sympathy among the Hebrews of this and other countries. Recently it was determined to make an effort to induce the czar to adopt a milder and more humane policy, and for this purpose Rabbi Krauskoph of Philadelphia, a

prominent representative of Jewish thought, has gone abroad. Rabbi Krauskoph is a man of strong convictions and much force of character.

and it is hoped by those he represents that he will be able to impress the Russian authorities with the desirability of propitiating American opinion by an abandonment of the alleged cruel persecutions of the Hebrew subjects of the empire.

Generations Look Alike.

Experts in handwriting say that all the people of a single generation write alike, and it is well known that most French handwriting has a strong family likeness to the eyes of others than Frenchmen. Nearly all Chinamen of the wash-house class look alike to superficial observers, and persons unaccustomed to colored persons find difficulty in distinguishing one from another. It needs, however, a comparison of two or three family photograph albums of twenty or thirty years ago to convince men and women of to-day that there are striking superficial likenesses running through Americans of a given generation. All these old albums show curious resemblances, chiefly, perhaps, of dress and face, but sufficiently striking for one family album, at first glance, to be taken for another. As page after page of each is turned over, there is the same succession of men, women and children in full figure, sitting, standing, posed in groups of two or three, with hats, without hats, draped in shawls, and manifestly dressed in their best for the occasion. The photographers of those days chose, for reasons of their own, to make full-length pictures, and as they were usually small, costume counted for a great deal and helped to intensify the general likeness running through the whole generation.

A Droll Wedding.

A remarkably droll wedding, at the registrar's office, Bristol, attracted an immense crowd not long since. The bride, a prim spinster, fair and 40, pushed into the office of the astonished registrar a family perambulator, in which was the bridegroom, a man of 45, so crippled in both legs that from birth he had not been able to walk. He was permitted to remain in the perambulator during the customary declarations of the civil contract, and when the bride again appeared, pushing the perambulator containing her husband, the crowd wished them joy and gave them plenty of rice.

King Behanzin.

A woman traveler who saw King Behanzin of Dahomey recently describes him as a good looking man, 55 years old, with extremely white hair. He is almost unable to walk, as he has been carried by attendants the greater part of his life. Five wives have accompanied him into captivity.

Registering Heat.

A new thermometer for registering extreme heat is composed of a liquid alloy of sodium and potassium, instead of mercury. The boiling point of this alloy is about 1,100 degrees above, and its freezing point 12 degrees below zero.

HOT ENOUGH FOR ANYBODY.

A Spot in Persia Where the Thermometer Shows 130 in the Shade.

The hottest region on the earth's surface is on the southwestern coast of Persia, on the borders of the Persian gulf, says an exchange. For forty consecutive days in the months of July and August the mercury has been known to stand above 100 degrees in the shade night and day, and to run up as high as 130 degrees in the middle of the afternoon. At Bahrin, in the center of the most torrid part of this most torrid belt, as though it were nature's intent to make this place as unbearable as possible, water from wells is something unknown. Great shafts have been sunk to a depth of 500 feet, but always with the same result—no water. Notwithstanding this serious drawback, a numerous population contrive to live there, thanks to copious springs, which burst forth from the bottom of the gulf more than a mile from the shore. The water from these springs is obtained in a most curious and novel manner. Machadores, whose sole occupation is that of furnishing the people of Bahrin, with the life-giving fluid, repair to that portion of the gulf where the springs are situated, and bring away with them hundreds of skin bags full of the water each day. The water of the gulf where the springs burst forth is nearly 200 feet deep, but the machadores—divers—manage to fill their goat-skin sacks by diving to the bottom and holding the mouths of the bags over the fountain jets: this, too, without allowing the salt water of the gulf to mix with it. The source of these submarine fountains is thought to be in the hills of Osmond, 500 miles away. Being situated at the bottom of the gulf, it is a mystery how they were ever discovered, but the fact remains they have been known since the dawn of history.

A Reminder of the Past.

The archway of an old bridge has been unearthed some feet below the level of the ground whilst digging the foundations for a new town hall for the Tenth district of Paris, some distance from the river Seine. It is seen from a very old plan of Paris that a small river actually passed through this portion of the town, joining the Seine some distance farther on. The bridge is in a perfect state of preservation, and will be left amongst the foundations of the town hall as an interesting souvenir of the olden days.

Their Enthusiasm Quickly Dies.

A good many enthusiastic Britishers who enlist to serve their country seem to find the conditions of service unsatisfactory, for nearly \$50,000 was paid last year by recruits to purchase their discharge before they had been in the army three months.

BAKING POWDER AWARDS.

(Data from the latest Official U. S. Gov't Report on Baking Powders, Dep't of Agriculture, Bulletin 13, page 599. From tests made by the Chief of the Chemical Division, who acted as Judge of Awards at the World's Columbian Exposition.)

ROYAL is placed first of the cream of tartar powders; actual strength, 160.6 cubic inches of leavening gas per ounce of powder.

Every other powder tested exhibited a much lower strength than the ROYAL, the average being 33 per cent. less.

Every other powder likewise showed the presence of alum, lime or sulphuric acid.

Royal Baking Powder has been found by every examination—official or competitive—to be the highest of ALL in leavening power, and of absolute purity and wholesomeness.

"I hear Grosseop has taken a wife."
"That's a mistake. He took a widow."
"Do your neighbors chickens trouble you much?" "Yes. They are so slow growing to a frying size."
"Are these colors fast?" she asked of the new clerk. "Yes, indeed, you ought to see them when they once start to run."
Husband, very late home from the club—Hum! I told you not to sit up for me. Wife, sweetly—I didn't. I got up to see the sun rise.
"How about your cousin Fred?" "Oh, we are as good as engaged. Yesterday he told mamma he was tired of eating in restaurants."
Lady—How dare you ask for alms when you are drunk? Come back when you are sober, and we shall see. Beggar—Ah, madame, I see you have made up your mind never to give me anything.
Mrs. Yearwed, beseechingly—Oh, if

I only knew of some way to keep my husband at home nights. Can't you from your long married experience suggest a plan? Mrs. Oldhand, grimly—Certainly; chain him.
Visiting Clergyman, anxious to compliment his host at a Sunday school celebration—My dear children, to what one man are we most indebted for the great crowd of happy faces seen here to-day? Bright Boy—Adam.
"Oh, Mr. de Cromo! I had such a time finding your painting at the exhibition to-day! It was hung away up in an obscure corner." "Yes. I am disappointed. I shall quit art and start a laundry." "Mr. de Cromo!" "Yes. Then my work will always be hung on the line."
He—If I were a poor man you would never have married me, would you? She—Certainly not. I love you the way you are, and if you had been poor you would have been so unlike your present self that I couldn't have

loved you. You see, my dear, it isn't the money, it's the combination.
"How is your health?" said the caller, at the 5-o'clock tea. "Very delicate," replied the hostess languidly. "I am kept on the strictest regimen." And then she leaned toward the table and began to eat a dainty luncheon, including ices, macaroons, pickles, strawberries, marmalade, olives, chocolate, charlotte russe and chow-chow.

Do the People of this Vicinity Distinctly understand we will meet or beat any price made by any competitors?

There seems to be some agitation in regard to CHENEY BROS. SILKS. We have just about sold out our 30 pieces at 59c, while our competitors have been trying to get big profits out of the people by asking them 75c for the same goods.

Now then, seeing that it was not possible to sell at 75c while we were getting only 59c they have come down to a close price at last. But we shall go to the bottom in this matter as we will every time and shall close out the balance of our stock of

Cheney Brothers' Best Printed Silks at 47 1-2c.

Any day you see anything advertised at a low price, that day you come to us and we will beat that price. It will pay you to watch our ads. and it will pay you to come to us for dry goods. It is not only on advertised lines of goods that we are beating all prices, but we are quietly cutting the price on hundreds of small items all through the store.
